

How to Add a Gadget

Go to your iGoogle

Click on the add gadget button

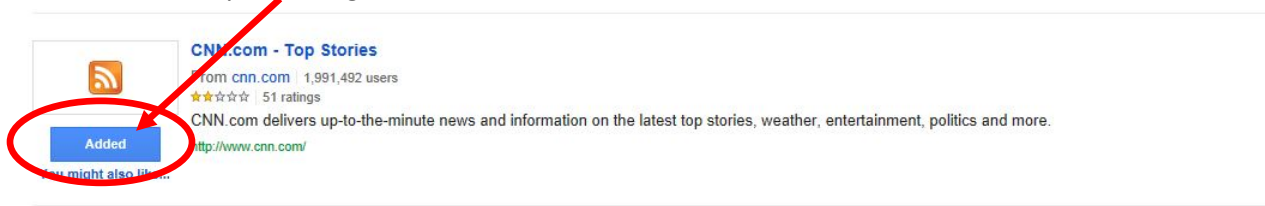

This page will pull up.

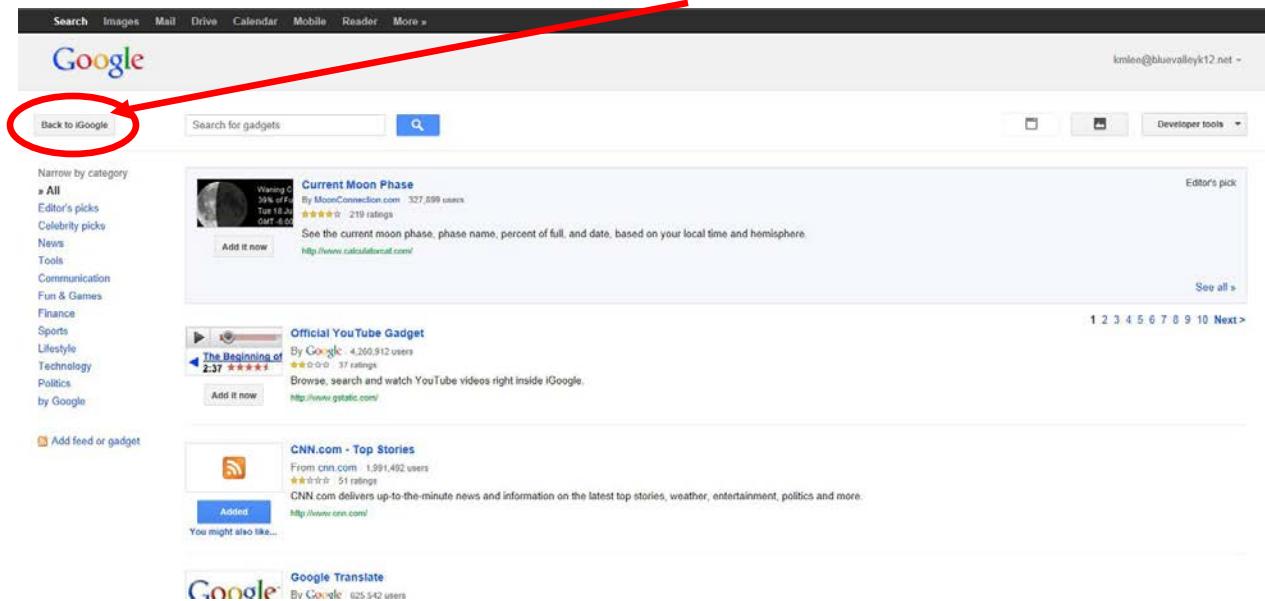

If you wanted to download CNN.com- Top Stories .You would click on Add it now.

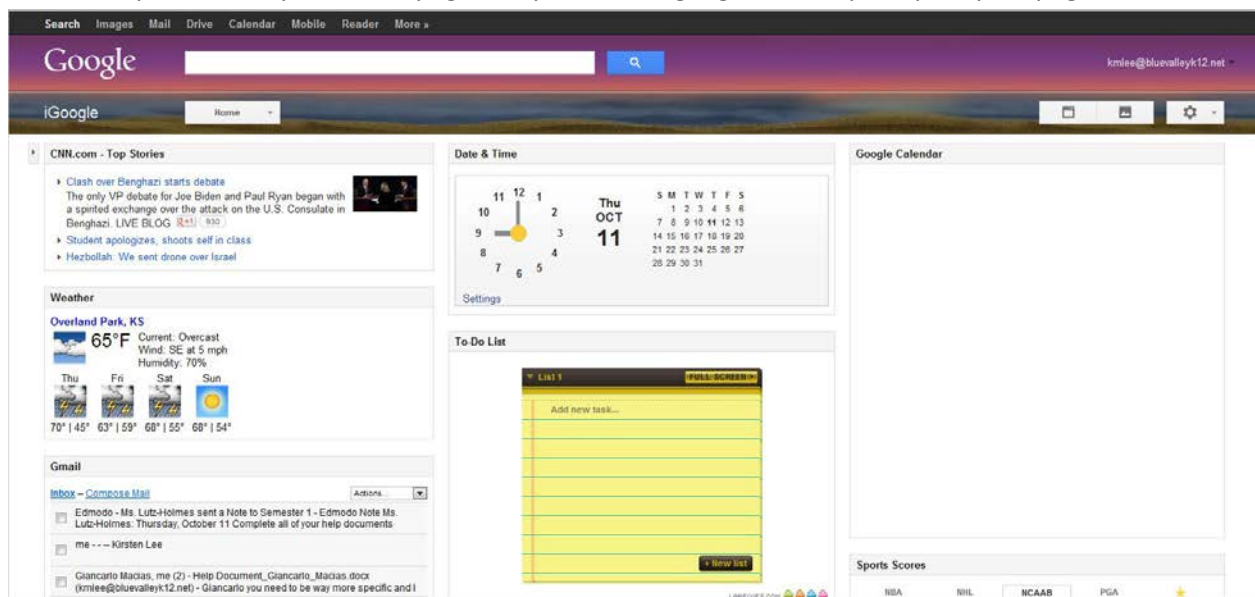

Now it should say Added right there.

Go to the top of the page by the search and click on Back to iGoogle.

It will take you back to your home page and your added gadget should pull up on your page like this.

Good Luck
